

netOctopus Enterprise Systems Manager Version 5.0 Information Items

Common (Windows and Mac)				Windows Only	Mac Only		
Agent Info	Other	Volume	Processes	System Hardware	System Hardware	Sound	Internet Settings
Administrator Privileges	Active Ethernet Address	Volume Backup Date	Process CPU Time	Memory	ADB	16-Bit Audio	Display Dialog on Mail
Delete Files	Computer Type	Volume Count	Process Executable Name	Address Space Available	ADB Address	16-Bit I/O	Email Address
Search HD	Date & Time	Volume Creation Date	Process Free Heapspace	Address Space, Total	ADB Device Count	Built-In Input	Finger Host
Send Information	Disk Drive 1	Volume Driver Info	Process Heap Usage	Memory in Use (%)	ADB Type	I/O Manager	Flash Icon on Mail
Update/Install	Disk Drive 2	Volume Format	Process Heapspace	Paging File, Available		Input Device	FTP Host
Network	FPU	Volume Free Space	Process ID	Paging File, Total		Line Level	FTP Proxy Account
Agent Uses AppleTalk	Processor	Volume Locked by Hardware	Process Name	Physical Memory, Available		Mixing	FTP Proxy Host
Agent Uses TCP	Processor Count	Volume Locked by Software	Process Parent ID			Multiple Channel	FTP Proxy Name
AppleTalk Net	Processor Speed	Volume Modification Date	Process Signature			Play and Record	Gopher Host
AppleTalk Node		Volume Name	Process Status			Play Double Buffer	Gopher Proxy Host
AppleTalk Socket	PCI	Volume Object Count	Process Threads			Stereo	Home Page
Apple Talk Zone	PCI Device Count	Volume Size	Process Type			Stereo Input	Internet Document Font Name
TCP/IP Number	PCI Device Description	System Software	Process User Name				Internet Document Font Size
TCP/IP Port	PCI Device Vendor	Other					Internet Download Folder
Other	PCI Driver Name	Computer Name	Software Meter				Internet List Font Name
Administrators	PCI Revision ID	Current User Name	Category Signature				Internet List Font Size
Custom Agent name	PCI Agent name	Daylight Saving Time	Category Type				Internet Organization
Last Notification Time	PCI Slot ID	GMT Delta	Occurrences				Internet Other Information
Last Notification Type		OS Version	Software Audit				Internet Printer Font Name
Last Record Modification	SCSI	TCP/IP	Audit Creator				Internet Printer Font Size
Log	SCSI ANSI Level	DNS Search Domains	Audit File Name				Internet Real name
netOctopus Agent Serial Number	SCSI Block Size	IP Address	Audit Found				Internet Screen Font Name
netOctopus Agent Version	SCSI Block Count	Adapter	Audit Licenses				Internet Screen Font Size
Notification Admin IP Address	SCSI Bus	Adapter MAC Address	Audit Summary Status				Internet Signature
Notification Admin Name	SCSI Bus Width	DNS Server	Audit Type				IRC Host
Notification Admin Zone	SCSI Capacity	Obtain Address					LDAP Searchbase
netOctopus Computer Name	SCSI Command Queuing	Routers	Administrators				LDAP Server
Notification Pending	SCSI Device Count	Subnet mask	Accessible Commands				Mail Account
Use Custom Agent Name	SCSI ID	TCP Implementation	Administrator Name				Mail Header
Agent Build Number	SCSI Linked Commands		Has Access				News Header
	SCSI Name	Other	Is Superadministrator				News Name
User Information	SCSI Removable	Fonts					NTP Host
User Info Locked	SCSI Response Data Format	Font Name	Log				Ph Host
User Information 1	SCSI Sync Support	Font Size	Category				Play Sound on Mail
User Information 2	SCSI Type	Font Type	Message				Preferred Archie Server
User Information 3	SCSI Vendor		Target Computer				Preferred Info-Mac Server
User Information 4	SCSI Version	Files	Time				Preferred Umich Server
User Information 5		Audit Status					Quoting String
User Information 6	USB	Creation Date	SNMP				Search Page
User Information 7	USB Device Class	Creator	SNMP IP Address				SMTP Mail Server
User Information 8	USB Device Count	File Archive Flag	Thousands of MIB Items				Snail Mail Address
User Information 9	USB Device Manufacturer	File Has Bundle	Installed Software				SOCKS Host
User Information 10	USB Device Product ID	File Has Custom Icon	Software Company				Sound Name
System Hardware	USB Device Product Name	File has No INITs Flag	Software Creator				Telnet Host
IDE	USB Device Protocol	File is Atlas	Software Installation Date				Underline Links
IDE Block Size	USB Device Serial Number	File is Apple Event-savvy	Software Modification Date				Use FTP Proxy
IDE Bytes/Sector	USB Device Subclass	File is Compressed	Software Name				Use Gopher Proxy
IDE Bytes/Track	USB Device Vendor	File is Init'd	Software Package Version				Use Passive FTP Mode
IDE Capacity	USB Device Version	File is Invisible	Software Path				Use SOCKS
IDE Cylinders	USB Driver Name	File is Locked	Software Product ID				Use Web Proxy
IDE Device Count	USB Driver Version	File is Native Mac OS X App	Software Short Version				WAIS Gateway
IDE Device Type	USB Power	File is Package	Software Size				Web Proxy Host
IDE Firmware	SMART	File is PowerPC-Accelerated	Software Version				Whois Host
IDE Heads	SMART Device Count	File is Scriptable	Volume Browser				Discontinued Systems Info
IDE Model	SMART Device Model	File is Shareable	Folder Content Gather Date				32-Bit Hardware
ISE Sectors/Track	SMART Device Serial Number	File is Symbolic Link	Registry				32-Bit Software
IDE Serial Number	SMART Device Firmware	File is System File	Data				32-Bit System Heap
IDE Bus	SMART Device ATA Version	File Launches as Mac OS X App	Data Size				A/UX Version
IDE Device ATA Version	SMART Supported	File Name	Data Type				DB Access Manager
IDE Connection (Master/Slave)	SMART Device Health	File Name is Locked	Registry Key				OCE Version
Memory	SMART Attribute ID	Last Read Date	Registry Key Content Gather Date				Openable Files
Memory Installed	SMART Attribute Raw Value	Modification Str					Scrolling Throttle
Monitor	SMART Attribute Value	Path					Square Menu Bar
Monitor Color Mapping	SMART Attribute Threshold	PC File Company					System Heap Size, Current
Monitor Count	SMART Attribute Worst Value	PC File Copyright					System Heap Size, Default
Monitor Depth	SMART Attribute Failure Time	PC File Description					System Heap Size, Free
Monitor Main Screen	SMART Attribute Failure Type	PC File Original Filename					
Monitor Mode		PC File Product Name					
Monitor Modus		PC File Product Version					
Monitor Refresh Rate		PC File Version					
Monitor Resolution (Horizontal)		PC File Version String					
Monitor Resolution (Vertical)		Size					
Vesa Vendor		Type					
Vesa Version		Version					
Video Adapter Description							
Video Card
